Full Stack Developer in continuous learning. After working in the Turkish National Police Academy and later as a lawyer, I am finally following my dream and dedicating myself to IT. My biggest goal is to combine the discipline with effective using of time, teamwork and the problem-solving experiences I gained from my past professions. My passions are to work with care, constantly improve myself, ask, learn and help others.

HTML	CSS	Bootstrap	Javascript	GIT
Rest API	Express.js	Node.js	MySQL	React.js
